EU CORE

European Cooperation in
Research and Education

EU CORE Consulting

EU CORE Consulting (EUropean COoperation in Research and Education) is a private company providing project identification, design, management, accounting and evaluation services to higher education institutions and small, medium, large companies in Italy and abroad.

Moreover, EU CORE Consulting is able to offer assistance in identifying European and Italian projects partners and to provide effective support for all operations related to the monitoring, management and communication of national, international and EU funded projects.

Project life-cycle

EU CORE Consulting provides assistance in the preparation and management of projects through all stages of the project cycle:

1. Preparation and design

- Project identification
- Partner search and consortium building
- Project design (technical and financial parts)

2. Project implementation and management

- Overall management
- Logistics organisation
- Monitoring of process and quality assurance
- Data management
- Reporting
- Dissemination and communication

3. Evaluation and impact assessment.

Training Courses

EU CORE Consulting helps with improving individual competences and increasing institutional capacities through training courses tailored for the needs of its clients.

EU CORE organises courses on all topics related to the design and management of national, international and EU funded projects (with a specific focus on financial reporting and on legal and contractual issues, including Intellectual Property Rights).

For further information on EU CORE services and on the forthcoming training courses, please refer to the website: www.eucore.eu
